CAREER OBJECTIVE

Aspiring Software Engineer pursuing a Bachelor of Technology in Information Technology with a strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and Database Management Systems. Eager to apply my technical and problem-solving skills to develop scalable software solutions while continuously learning and growing in a software engineering role.

EDUCATION

Bachelor of Technology in Information Technology	2023–2027
Vignan Institute of Information Technology, Visakhapatnam	CGPA: 8.76
Intermediate (MPC)	2021–2023
Rishi Junior College, Visakhapatnam	93.4%

TECHNICAL SKILLS

- **Programming Languages:** Python , SQL
- **Frontend:** HTML5, CSS3
- **Backend:** Node.js, Express.js, FastAPI, Firebase
- **Databases:** MongoDB, MySQL
- **Developer Tools:** Git, GitHub, Postman, VS Code
- **Core Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, RESTful APIs

PROFESSIONAL EXPERIENCE

AICTE & EduSkills	May 2025–June 2025
<i>Web Full Stack Development Internship</i>	
• Developed responsive full-stack applications using HTML, CSS, JavaScript, Node.js, and backend technologies. • Designed and integrated RESTful APIs while collaborating using Git and Agile development practices.	
APSSDC	May 2026–July 2026
<i>Android Web Application Development Internship</i>	
• Developed responsive Android-based web applications using modern development practices. • Integrated Firebase, RESTful APIs, and database connectivity to implement and test application functionality.	

TECHNICAL PROJECTS

Movie Recommendation Frontend Application	<i>JavaScript, HTML, CSS</i>
• Developed a responsive movie recommendation web application using React.js, HTML, CSS, and JavaScript. • Implemented movie search, category-based filtering, and reusable React components to enhance user experience.	
Flight Analytics Platform	<i>Python (FastAPI), MongoDB, Scikit-learn</i>
• Developed a Flight Analytics Platform using FastAPI and MongoDB to process over 67,000 flight routes. • Optimized MongoDB aggregation pipelines, reducing REST API response time from 1.2 seconds to 180 milliseconds.	
Finance Data Processing & Access Control API	<i>Node.js, Express.js, MongoDB, JWT</i>
• Built secure RESTful APIs using Node.js, Express.js, and MongoDB for financial data management. • Implemented JWT authentication and Role-Based Access Control (RBAC) to ensure secure user access.	

CERTIFICATIONS & ACHIEVEMENTS

- Infosys Springboard – Python Programming Certification.
- IBM SkillsBuild – SQL and Relational Databases.
- Solved above 80 algorithmic problems on LeetCode.
- Achieved the **Gold Problem Solver Badge** on CodeChef by solving **500+** programming problems.
- Achieved the **Gold Contest Participation Badge** on CodeChef by participating in **50+** coding contests.
